#### Objection to Declaration of Inventorship

The Examiner objects to the Declaration of Inventorship as defective. In particular, the Examiner asserts that the Declaration includes an uninitialed, undated alteration to an inventor's address. Applicants have diligently attempted to obtain a replacement Declaration of Inventorship, but have not been successful. As such, Applicants have filed a Petition under 37 C.F.R. § 1.47(a) to File Declarations on Behalf of Nonsigning Inventors who Refuse to Sign or Cannot be Reached, a copy of which is enclosed herewith, and a Declaration in Support of the aforementioned Petition, a copy of which is also enclosed herewith.

In view of the foregoing submission, Applicants respectfully request that the Examiner hold any objections to the Declaration of Inventorship in abeyance pending the decision on the above-referenced petition.

#### Objection to Abstract

The Examiner objects to the Abstract of the Disclosure. In particular, the Examiner asserts that the Abstract exceeds 150 words. Applicants have amended the Abstract of the Disclosure so that it is now less than 150 words. Accordingly, Applicants request that the Examiner withdraw this objection.

#### Claim Objections

The Examiner objects to claims 7, 9, and 11 as including a typographical informality. Claims 7, 9, and 11 have each been amended to correct this informality. As such, Applications request that the Examiner withdraw the objection to claims 7, 9 and 11.
